SALE TERMS & CONDITIONS

All animals will be sold in accordance with the suggested guidelines of the American Simmental Association. For updated EPDs, genetic status, plus the current ASA guidelines and conditions go to www.simmental.org. Announcements made sale day and from the auction block take precedence over printed material associated with this sale. Anyone attending this sale attends at his or her own risk. ClearWater Simmentals, DP Sales Management, LLC, or guest consignors will not be responsible for any personal injury while attending this sale.

HERD HEALTH

All bred cattle are vaccinated with Covexin 8, Vira Shield 6+VL5 HB, Autogenous Bacterin, Scour Guard 4KC, Multi Min and wormed with Dectomax pour on.

All opens are vaccinated with Covexin 8, Pyramid 5+Presponse SQ, Multi Min. and wormed with Dectomax pour on and Synanthic Suspension.

All cattle have been BVD tested and everything 3 years and older is Johnes tested annually. **All calves along side cows** have been given 1 dose of Nasalgen 3 PMH and Multi min.

join us in Milan, Indiana

Dear Friends,

Welcome to the **2026 Clear Choice Female Sale** in Milan, Indiana! On behalf of DP Sales Management, Clear Water Simmentals, and our dedicated consignors, we are excited to once again be part of this outstanding event.

Each year, the Clear Choice Sale brings together cattlemen and women who share a passion for quality Simmental and SimAngus genetics and the relationships that make this business special. This year's offering provides opportunities for a variety of programs, from young open heifers and show prospects to proven cow families and bred females. We believe these cattle offer the quality, functionality, and longevity needed to make a lasting impact.

Our goal at DP Sales Management is to make the buying process as smooth as possible. Whether you are attending in person or bidding online through **DVAuction**, we are available to assist with questions, bidding, transportation, settlement, and anything else needed before or after the sale.

We sincerely appreciate our consignors for their continued confidence and commitment to the Simmental breed. We are equally thankful to every buyer, bidder, and supporter who helps make Clear Choice a success year after year.

We look forward to seeing you **October 24th in Milan**. As always, please let us know how we can help!

grateful for your trust

Welcome to the 2026 Clear Choice Female Sale!

It is hard to believe another year has come around and we are once again preparing to offer a set of females that represents the cattle, people, and programs that make the Clear Choice Female Sale special. We are proud to be part of the Simmental breed and even more grateful for the friendships and partnerships that have grown through this business. Year after year, it is the people and cattle that keep us excited about what lies ahead.

This year's offering is built around **quality, functionality, and cow power**. From young open females with their productive years ahead of them to proven genetics backed by families that have consistently delivered, there are plenty of opportunities to find the next female that can make an impact in your program. We believe the value of a good female goes far beyond sale day—she needs to work, produce, raise a good calf, and leave a lasting influence on the herd.

One of the things we enjoy most about the Clear Choice Female Sale is bringing together cattle from programs with different strengths and perspectives. We are thankful for the continued support of the **Beshears, Hoeing, and Neal families**, as well as everyone who contributes cattle, time, and enthusiasm to make this event possible. Their commitment to raising functional, competitive, and productive Simmental cattle is evident throughout this offering.

We are also proud of the opportunities this sale creates for the next generation. Whether it is a young family getting started, an established operation adding a new cow family, or a junior looking for their next show prospect, we hope you will find a female here that fits your goals. We have seen firsthand how one great female can become the foundation for something much bigger.

Thank you for taking the time to study this offering. We encourage you to visit with the consignors, watch the videos, study the pedigrees and performance information, and reach out with any questions. **We want you to be confident in the females you select and are always happy to help in any way we can.**

We look forward to seeing you **October 24th** for the **2026 Clear Choice Female Sale** and to another great day surrounded by good cattle, good friends, and the people who make this breed so special.

Thank you for being part of Clear Choice.

With gratitude,

Jeff & Leah Meinders

Lots 1A, 1B, 2A, 2B: JSUL Rosie 3418L is a many-time champion owned by Addison Bartlow and the Adcocks and is an exceptional female that is nearly fault-free in her design, power, soundness, balance, completeness, and overall look. She has the presence of a champion when she walks into the ring and walks out with a backdrop picture and a sparkling championship banner. She is perhaps the most well-known female from this famous mating, which is writing another big chapter in Simmental show-ring history. Here is your quick history lesson and a testament to the predictability of this cow family: the granddam, Peine/GS Rosie 677D, was a past Denver Champion and has a recorded 219 progeny to date. If you go down that list, the majority are past champions, high sellers, and animals that are still in production. The great-granddam, Black Rose 92H, is a full sister to Makin Honey, the 2004 NAILE Champion, and Honey Dew, the 2003 Reserve Champion at Denver. This is also the same family that produced In Dew Time, Duracell, and 20/20, all of which have been instrumental in the breed. As a breeder, follow those cow families that have proven themselves in the show ring, gone on to big-time production as donors, and produced leading industry sires. The choice will not be easy, but no matter whether you choose the SO Remedy or Revelation 2K mating, there is tremendous opportunity here. Offering choice of each sire; only two head will sell.

CLEAR WATER SIMMENTALS

I never know where animals are going to land in the sale order, so you may need to elevate your attention when you get to P422B. There are not too many holes in this January female. She carries herself well, is good on the ground, super deep, and will carry loads of capacity. Classic Design has the look while maintaining balance and a nice profile. What will she look like this time next year roaming your pasture? Two family members sold for \$6,500 and \$6,000 last year, while Lotsa Love B422 sold for \$20,000 to Austin Sorenson, who said it was a good investment. Lotsa Love is a DP favorite, and we think Classic Design is another one to keep up with.

Here is another standout member of the 422 Lotsa Love family. Her dam has made a name for herself in our donor pen, and as you can see in P422D, it's easy to see why. We've been extremely pleased with the On The Run calves—they offer presence and power, with extra substance and mass. Once you're done collecting banners with this one, she'll transition into a standout brood cow.

Lots 5 - 12D: Here is an outstanding set of 13 open heifers from the proven DAF Dakota D13 cow family, offering four by BESH Perspective, three by RP/BCR Eminence H005, three by FRKG Classic, one by WHF/JS/CCS Woodford, one by BOWJ Manifest, and one by Black Ace Double Run. I believe this is the best set of open heifers we have ever offered carrying the Clearwater and Beshears prefixes. If you have been to Milan and sat in the seats, watched, bid, or even purchased online, we thank you again. Our success is because of you, our customers, and the confidence you have placed in our breeding programs. This group is amazing, and Leah and I certainly have our favorites. The 2025 sale was a great one, with cattle going to Indiana, Kentucky, Ohio, Tennessee, Pennsylvania, Nebraska, Wisconsin, Utah, California, and West Virginia. We appreciate your interest and your purchases in the fall sale and our other two sales. The show-ring success of the juniors and their families has also been impressive, bringing home banners and now looking forward to putting those purchases into production. Most of these open heifers are sired by different bulls than last year's offering, which we feel is a big testament to our breeding programs and the ability of this donor family to click with a variety of sires. Last year, we sold 10 open heifers out of Dakota D13 ranging from \$5,750 to \$16,500. This year, make your big-time selections from progeny sired by RP/BCR Eminence H005, BESH Perspective, FRKG Classic, WHF/JS/CCS Woodford, Black Ace Double Run, and BOWJ Manifest. Many members of the Dakota family have won banners and hardware, and without a doubt, these heifers have the potential to become your future top cows or donors.

We had been watching the donor RF Up The Limit and her progeny, and she has certainly proven her worth. In the spring of 2024, two of her daughters sold for \$20,000 for half interest and another for \$11,500. Earlier, her son CCF Saddle Up claimed Division Champion honors at the North American in both 2022 and 2023. RF Up The Limit has proven to be a true trailblazer, combining power and consistency with the ability to transmit those traits to her offspring. We purchased CCF Rumor Has It for \$12,000 at the C&C Fall Production Sale, and Sky the Limit is just that—sired by ES Five Star Limitless and offering endless possibilities. I feel this is a female with quality of the highest order, and in my opinion, M907 could be one of those females that makes the list along with the other great ones carrying the BESH prefix. The true test is not just what she can do in the show ring, but more importantly, her ability to outproduce Rumor Has It and Up The Limit and become a top member of this great cow family. At Beshears Simmentals we are very excited about this entire group of open heifers, and we hope you can find the right one for your program.

Here is a honey of a cow prospect with a sleek front and plenty of eye appeal. When Jeff came out to the barn on that cold winter day of January 3rd, the first thing he said after seeing this heifer was, "Oh Yeah." The name stuck with us all. The dam of Oh Yeah is the more-than-famous donor Oh Reba, a Denver Champion who has produced numerous champions across the country. Don't let Jeff's favorite be overlooked—she is loaded with potential and has the kind of quality that could bring her back into the spotlight. This is a no-fit show heifer, so Jeff can help you make the call on this one!

Look at the past bull and female sale catalogs, and you will see the success of Andie and the strength and consistency of the WHF prefix. Rose MC Encore is a son of the \$100,000 SSF On Point on the top side and is a strong addition to this pedigree. Four daughters sold last year with price tags of \$16,500, \$9,500, \$6,500, and \$5,750. Graham Dickerson's Lot 4B from the 2025 Female Sale, an Encore daughter, was named Supreme Champion at the 2026 Spotlight Show in April, winning \$3,000. This Encore x Andie mating could do the same, and not just at the Spotlight Show. This SimAngus female is built right from the ground up, with good structure, soft and flexible pasterns, a wide top, level hip, and complete design from end to end. She is fancy, too. To show or not to show is not the question—the pedigree stays the same, predictable and dependable for the long run. The production record of generations tells the story.

Woodford is one of the most consistent sires we have seen since his first calves hit the ground, from weaning and yearling stages all the way into production as first-calf heifers. We have always had new bulls, and even sons of Woodford, but his consistency speaks for itself. P281 has the Summer donor on both the top and bottom sides of her pedigree, stacking proven maternal genetics throughout. She is Homo Polled and Homo Black and is a high-accuracy female. Good structured and fancy, she is the kind of female that should have a long, productive future.

BESHEARS SIMMENTALS

PJ14 is a maternal sister to the 3rd Overall B&O at this year's Junior Nationals, who was undefeated in her division at six national shows. She will be the first calf to sell out of this new donor, Dolly, a Delilah granddaughter. Dolly is a class act with her neat design, soundness on the ground, and overall balance. Trust Fund adds even more power and performance, while the red cows on the bottom side give her a strong maternal foundation and a big future as a cow. Hopefully, you are in a position to add this kind of female and build your herd back. Here is the next generation.

Destiny is the show-off of the bunch. The word for her is sleek and eye-catching. PL14 is very smooth-made, neat through her shoulder, and comes with a great pattern and profile. Here is one to show anywhere, and maybe even in a jackpot. Looking toward her future progeny, study the EPDs—she ranks in the top 10% for WW, YW, and REA. She is backed by impressive cows including WHF Delilah, WHF Angels Envy, and WHF Sierra. What will she look like as a bred heifer and then as a first-calf heifer? There should be no problem with her future with those big feet, big legs, good structure, and the power to go with it. A very exciting young female.

Here is one that is very intriguing, with all the right pieces and parts to become an outstanding female. We proudly represent this female from our breeding program, and she is exactly why our list is long on high-quality, high-potential open heifers. The Eminence son Dialed In is doing a great job, and we need more of these females as they go into production. The pedigree is well known for consistency, with cow families that have been sought after for their excellent track record. Whether they win a banner or never see a show ring, their value remains the same when the cow family is this predictable. PH25 is young and loaded with potential, and the strength of this cow family allows you to project her forward as a bred heifer and eventually as a productive cow. A very exciting female to consider on sale day.

Lots 20A, 20B, 21, 22: Here is a powerful group of four heifers from the S/P True Love family, and it will be a tough decision deciding which one to take home. Revelation 2K was a \$200,000 high seller owned by Schaeffer and Bloomberg, and he has done an excellent job stamping his progeny with consistency and similarity, with many offspring becoming top sellers and champions. These four heifers are big-boned, stout, robust, deep, wide, and complete, with the kind of maternal strength and long-term productivity we look for in a cow prospect. In the past two years, S/P True Love has had four daughters sell each year, going to Wisconsin, Kentucky, Indiana, and Ohio. The half sisters, sired by BOWJ Manifest and the time-tested Woodford, have already proven themselves in a short period of time. These half sisters are peas in a pod—well-balanced, cocky, and possessing the look of a champion. Analyze these four heifers and you will see the strength of S/P True Love. On sale day, it will be a tough decision because they are so similar, but you can decide between the four and even pick two or more. You could fall in love with all four!

The Emmy cow, Bramlets/DBLG Emmy G930, is one of the best cows I have ever seen. In fact, we were a contending bidder the day she sold to Canada. However, the first time they offered genetics out of G930, they ended up in Milan. I hope you analyze the picture or ask the breeder or owner about her—she is a model cow with an awesome shape and design, and her udder is near perfect. It is hard to find cows like Emmy G930. P9A is a blaze-faced Limitless daughter, and as you project her forward, the brood-cow look is already there with plenty of potential. Emmy P9A has top EPDs across the board, ranking in the top 20% for CE, top 25% for BW, and strong for API. If you have not used Limitless, make your breeding decisions after looking closely at this baldy.

I can give you several reasons why you need to take a serious look at Lady Luck P5105B. Throughout our bull and female sales, several progeny have been sold from Ebony's Joy 5105R, which was born in 2005 and has 103 progeny recorded. Several daughters have been flushed and shown successfully, including Maverick, who has done well at the North American and Hoosier Beef Congress. Joys Shade also did very well in the show ring and has 30 progeny recorded. Each year in our bull sale, several bull customers buy into the 5105 family. These customers have commercial cows and sell their cattle by the pound, and this family consistently tops the market and produces some of the heaviest cattle at weaning. The top side of the pedigree reads Genoa x Bet On Red and Black Satin. If you need another reason, she will make a cow—and she is backed by proven customer service and a family that works.

No doubt, here is one that will catch your eye in the catalog, video, and out in the grass lots. As her sire says, she is Dialed In. Buck Creek bred a great bull, and we look forward to seeing more of his progeny as they go into production. This granddaughter of Andie is carved out right in her overall design. PL39 shows plenty of flash with her long, extended, clean front through her head, neck, and jaw. This May-born female is smaller-framed, but she is also younger than many of the others, so don't overlook her—of course, she will be in a different age division. This is another great example of the Andie family, which has highlighted many of our past sales. Most importantly, this family has produced happy customers and customer satisfaction. Keep an eye on the Spotlight Show—it is one of the highlights in April. Pay attention to this special, fancy female. Our bull customers continue to come looking for Andie sons.

Here is a proven red donor that will produce top-end bulls and females, whether you market them as open heifers or bred females. In the 2026 Bull Sale, several buyers were bidding on Lot 35, which ultimately sold for \$11,500 to Miller Farms here in Indiana. The next bull, a Next Level, sold to Alford Mitchell. In the Customer Sale, a fall heifer went to Texas for \$5,750. In the 2025 Bull Sale, six bulls averaged \$8,183, and a female sold for \$6,900 and stayed in Indiana. In the 2024 sale, three females sold to Evan Fuller, Chris McBurney, and Humphries Farm. This donor is impressive, but more importantly, her progeny of both sexes have been high on everyone's list. The bulls were head-turners. It's a good thing we have more embryos and some sons and daughters available, or there would be no getting this one on a truck! You know the market for good show prospects is wild, but a proven donor can add genetics and value, and she has already made her mark. Sells open and ready to go. You should have seen that red heifer that sold to Texas!

Electra is a young female with many positives and strong attributes, and she is definitely the right kind—not just to fit into your program, but to rise to the top. This is the real deal: powerful yet complete, big-boned yet sound and flexible, carrying tremendous capacity while remaining a model of efficiency. She is feminine up front without sacrificing substance, stout and rugged yet still complete from end to end. We believe her purpose is to raise offspring with performance, style, and the potential to become high sellers. Her EPDs do more than stick out—they are elite, ranking in the top 2% for CE, top 3% for BW, top 15% for MCE, top 1% for Stay, top 5% for MB, top 1% for API at 204, and top 4% for TI. Electra offers elite quality, elite EPDs, and the data to back up her future as a valuable genetic contributor.

Lot 30A: Bull Calf | BD: 9/1/26 | Tattoo: P223A | Act. BW: 69 lbs.

Sire: Schooley Krown 28K (ASA# 4115546)

The Beautiful line is a top cow family for sure. John Walston purchased SVF Sheza Classic N905 at the 2003 North American Sale. M223A is three generations from Sheza Classic, with the fourth generation being the highly noted SVF Sheza Lady J900, purchased as a pregnancy. Sheza Classic is the dam of Beautiful S054 and is a full sister to Sheza Star N902, which sold for \$60,000 for half interest and was owned with Sunset View. Classic is also a half sister to SVF Sheza Beauty L901, a Denver Champion and \$20,750 high seller, who went on to produce SVF Steel Force, a \$50,000 bull. The pedigrees are important—how many generations do you look back? M223A is worth adding to your program, especially with a Schooley Krown calf at side.

Lot 31A: Heifer Calf | BD: 9/1/26 | Tattoo: P9379 | Act. BW: 69 lbs.

Sire: ES Five Star Limitless LJ39 (ASA# 4186927)

Crocus M9379 will have a nice udder sale day and should be highly maternal. The Limitless calf will be a bonus. Like the other bred Crocus females, M9379 is deep, wide, and loaded with capacity. Don't overlook the top side of her pedigree, either—Rockstar is an ES Right Time x Sugar C4 combination. As the granddam says, no strings attached. This is a functional, maternal female with plenty of future.

Sire: **WINC All Right 213K (ASA# 4100635)**

Red ones like Cinnamon are hard to find, especially in production and with a good calf at side. When I decided to add this one to the sale, I had forgotten all the history and generations behind her. I overlooked the sires and dams: 20/20, HLTS Dakota (Shear Force x Red Jewel), Onyx, Dominance, Caliente, Loaded Up, 8543U, High Voltage (Duracell x Miley Cottontail), Sheza Fantasy, Power Drive, Sheza Lady J900, and Sheza Dandy. Please name one animal in that pedigree that didn't work. Most were instrumental in the breed. M77 offers many other strong attributes as well, including her presence, neat front one-third, depth, good structure, and completeness. She is donor quality, and hopefully you make the decision to invest in her because, with all those ancestors backing her up, the future is going to be bright with her progeny. The buyer gets to make the selection for the next generation.

Sire: **CLRWTR Clear Advantage H4G (ASA# 3858588)**

The Jestress donor known as Ditto has been a longtime elite progeny producer for C & C Farms. Ditto B79 was Supreme Champion at the Simmental Breeders Sweepstakes, and her progeny have excelled in every way. At Georgia's biggest and most competitive show, a daughter has won six years in a row. In last year's sale, a pair sold for \$12,500 and went to Nebraska. Here is another opportunity, with the pair sired by Redstone and a calf at side by Clear Advantage. One of the many strengths of Clear Advantage is the udders and how well they hold up, along with excellent teat placement. M79A should have one of the top udders in the pair offering. This is a female with the ability to make money and add value to your program.

Sire: GCC Night Owl 3104L (ASA# 4284092)

This pedigree has shown up in many Clear Choice bull and female sales over the years, and the strength of the 457 cow family is evident through every generation. She can produce top-end bulls and females, with a sale-topping bull bringing \$15,000 in the 2020 Bull Sale. Her progeny have sold through several sales and gone to Wyoming, Indiana, Kentucky, Illinois, Nebraska, Florida, and Texas. Looking Good M457A has an impressive dam, and we believe this female will turn out the same way. She is sharp-fronted, well balanced, and neat-made in her overall design. I know you will like this pair, especially with a calf at side sired by the Denver Champion, Night Owl. Private Stock adds another valuable piece to the equation. M457A reads in the top 10% for WW and YW. This is a pair you will want to keep in your pastures.

Sire: FBFS Warsaw 068W (ASA# 2489747)

Here is another member of the long-producing 5105R donor family. This cow family includes great-producing bulls such as Rocking P Private Stock, Relentless, Hooks Broadway, and Lady Luck. This female exhibits a feminine look with a great neck, head, and jaw. Pretty classy is a good way to describe her. Liberty will have a calf at side by the hard-to-get semen bull Warsaw. His daughters are tremendous. He won a major show, but more importantly, his genetics are becoming increasingly hard to acquire. Here is an opportunity to get a female carrying that influence.

Sire: WINC All Right 213K (ASA# 4100635)

N5105K will be around for a long time because this cow family is dependable year after year. We have more family members in our herd from this line than any other, and in every bull and female sale, we offer several of their progeny. The daughters offer calving ease combined with performance and milk. The word that comes to mind is optimization across all traits. This first-calf baldy female puts all of those things together in a package you can't turn down. The calf at side is a big plus, sired by Windy Creek WINC All Right 231K, who is now working in the Griswold program. The top side of the pedigree reads Clear Advantage x 20/20, then add Epic and Fort Knox. This is more than a striking pair—it is a female with a proven future.

PE to ES Five Star Limitless N13X (ASA# 4667210) from 1/2/26 to 1/22/26. Natural Service on 1/11/26. Here is a truck! You need to take a serious look here and consider buying this beast. Talk about deep, wide-based, stout, with a good base, wide top, flexible structure, and a nice look. In each sale, the bred females have been a strong group, and in our opinion, M2026 deserves serious consideration as a female to replicate in an embryo program. This first-calf heifer ranks high for her age and future, with EPDs in the top 10% for CE, top 3% for YW, MCE, and ADG, top 5% for WW, and top 15% for API. The calf at side has 11 EPDs in the top 15% or better. This resulting calf will have plenty of potential, Krown & Limitless will work.

AI'd 5/29/26 to WHF In Charge M414 (ASA# 4568618). The donor DAF Dakota D13 has excelled for us over the past several years in both our bull and female sales. Last year, we had 10 open heifers sell for \$16,500, \$10,000, \$9,500, \$7,750 and others, going to six different states. This Woodford-bred female is moderate-framed, complete, sound, and carries on the influence of D13 with the same kind of maternal strength we have seen throughout the family. She is a female that brings together generations of proven genetics and should have a bright future in any program. Homo Polled and Homo Black.

AI'd 4/17/26 to SFI Lone Wolf (ASA# 4570908). N64 is an Eminence daughter out of the donor DAF Dakota D13, making this a truly proven, generational pedigree. We haven't been able to keep or offer many bred females out of D13, and this female looks like the others from this great family—moderate in her frame, big-bellied, and built like the kind that will work and stay in a herd. If you haven't seen Lone Wolf, ask Scott Schaake or Steenhoek—they will quickly tell you to get on board. This is an exciting mating and a female we believe will pay dividends for years to come.

AI'd 5/24/26 to GCC Night Owl (ASA# 4284092). PE to JWC You Betcha 865N (ASA# 4552723) from 5/28/26 to 7/27/26.

We were out on a limb when we decided to use W/C Red Bird, but we hit a home run, and the progeny speak for themselves. In the 2025 Bull Sale, we sold six, and they were well received by our bull customers. Again, here is an opinion—but not mine, DP's. HPF Right To Love B320 is a Cowboy Cut daughter out of the Rocking P Right To Love 015U family. N320A has been way underutilized, but I believe she will rank high as a daughter of this great cow family. Red Bird produced a top one here, just with a little chrome. Look her over; she will be easy to like. Classy, fancy, sharp, and complete—this is a female with plenty of future.

AI'd 5/7/26 to ES Five Star Limitless N13X (ASA# 4667210). PE to JWC You Betcha 865N (ASA# 4552723) from 5/28/26 to 7/27/26. Emberly has been a very consistent donor over the years and, as usual, continues to be top-notch. The Clear Choice brings you a Right Now x Emberly female, and this cow family consistently passes on that super look—very feminine, sharp through the neck, face, and jaw, and well designed from end to end. In the 2022 Bull Sale, a Warsaw x Emberly bull sold for \$16,750 to Barron Simmental. Her progeny are in the hands of Haley, Henthorn, Marty Collier, William Armstrong, David Vaughn, Sembra, Drew Veshlage, Barron, Sloup, and others. We have always been high on the Right Now cattle and purchased a Right Now son from JWC. We will continue to use those genetics, or better yet, get your semen for fall breeding needs or flush to JWC U Betcha. In 2023, three breds sold with a top at \$7,500 to Circle T, and in the 2025 Bull Sale, Claridon Smith selected an Anthem x Emberly. This bred female stacks up with the best of them.

AI'd 4/14/26 to SFI Lone Wolf N2 (ASA# 4570908). Miley is neat-made, smooth, and well-balanced and is headed in the right direction to bring profit and build cow numbers, which we all need to continue rebuilding. This bred heifer is maternal, should have an excellent udder, and is built to optimize efficiency. These proven pedigrees add value and genetic merit, and this mating will produce a Homo Polled, Homo Black calf. Lone Wolf is one of the most exciting young sires to come along and has quickly become a crowd favorite.

AI'd 4/13/26 to WHF Point Taken K65 (ASA# 4209447). Missy has made a big influence in our program and in programs across the U.S. and Canada. You can't go wrong stacking generations of proven genetics with Sugar, Double Up, Two Step, and Missy U409, who was a high seller at the North American. This Summit female comes with a wide hip, top, and plenty of capacity, while still being built to be an easy-keeping, efficient female. She combines the kind of pedigree and phenotype that can work in a variety of programs and continue the Missy family's influence.

AI'd 4/4/26 to SFI Lone Wolf (ASA# 4570908). Here is a granddaughter of Andie 365A. Most breeders know the influence of Andie and Summer, and this cow family has consistently produced cattle with value and demand. In the 2024 sale, two Reckonings sold for \$16,000 and \$10,250, and over the past few years, progeny have commanded \$7,500 to \$10,000, with both commercial and purebred breeders seeking her sons. A54 is wide-based, with plenty of spring and capacity through her middle, while carrying good muscle and thickness from behind. You will be more than excited about a calf by Lone Wolf. Add another top bred female from a proven cow family to your breeding program.

AI'd 4/1/26 to KBHR Bold Ruler H152 (ASA# 3789539). Toni has great EPDs across the board, which will be a benefit to her future progeny, and she has been Genomic Enhanced. The Summit progeny are high-performing and stout-made, and Toni traces back to the oldest cow in our herd. Don't worry about her bobtail—she will be around for a long time, just like her grandmother. Bold Ruler ranks in the top 10% for CE, BW, MCE and in the top 1% for MM, MB, and API.

PE to JWC You Betcha 865N (ASA# 4552723) from 6/6/26 to 7/27/26. Natural Service on 6/6/26. Emmy N9B is deep, soft in her kind, and carries tremendous depth and spring to her rib with plenty of capacity. She is built to be a model of efficiency and should make a very productive cow. You are going to get an early calf out of our new herd sire, U Betcha (ASA# 4552723), a Right Now son out of W/C Angel 8598F. Anytime you go to W/C or JWC, the Right Now cattle are a proven herd-sire group. N9B ranks in the top 15% for CE and is Homo Polled and Homo Black. This is a very attractive young female with a bright future.

AI'd 4/17/26 to ES Five Star Limitless N13X (ASA# 4667210). PE to JWC You Betcha 865N (ASA# 4552723) from 5/28/26 to 7/27/26. We have high hopes for JWC U Betcha, a Right Now x Innovator x W/C Angel 2370Z. We sold two open Angels last year for \$6,500 to Scott Barrett and \$6,000 to Kerry Miller, both good customers. This is a functional female to take home and add to your operation. She is backed by the Beautiful Z223, S054, and N505 cow families.

Lot 63

Bred Heifers

Bramlets Beautiful Z223 - Dam of Lots 64-67

Lots 64-66: No betting here on these two full sisters sired by Bet On Red and backed by this great cow family. There is also a Private Stock daughter in the group, and she might be on the special list! It's a good thing we are selling all three because it would be hard to pick just one. Bramlet Beautiful Z223 has been a proven source for us, and we have sold several opens and breds through the Clear Choice, along with showing a few with much success. The daughters and cows have great udders, thanks in part to the In Dew Time influence and the extended cow family. We can remember several years ago when the Ison family showed a daughter with great success, winning banners and putting a smile on Scott's face. Thanks, Scott, for all your help and friendship over the years. This is a consistent cow family from top to bottom, and these three females are great examples of what it can do.

Here is one of my favorites—not just because she is a baldy, but because she is a high-end female that is ready to go to work. She is sired by the Charger bull, with the bottom side going back to Red Jewel. Some would say she is a beast, but I say she is a great-looking power cow with no holes and the ability to benefit any program. My opinion again, but you can drive around and ask a lot of good cowmen and cownwomen, and they will tell you we are offering an elite selection of opens, breds, and pairs. Sorry, I have many favorites—now choose yours!

PE to JWC You Betcha 865N (ASA# 4552723) from 5/28/26 to 7/27/26. Sugar has been a mainstay in our operation and has excelled in production. She has produced sons and daughters that we have been able to offer while also retaining a few in our own herd. Sugar H4F, as a donor, has held her own by producing high-quality, sought-after bulls that have performed well in the Bull Sale. This year, Lot 9, Red Bird, sold for \$10,000 and went to Florida. In last year's Bull Sale, we sold eight sons averaging \$8,800 out of our Sugar donor H4C, with the top three bringing \$10,000, \$11,250, and \$10,250. In the 2024 sale, Game Changer sold for \$20,000 to Schooley, and the year before that, Clear Advantage sold for \$30,000. Sugar N4D is a 3/4-blood female ready to go to work. Add some Sugar!

I can't remember the exact number of progeny we have sold in our bull and female sales out of 5105D and her daughters—I would probably have to ask Doug. We have sold them all as breds or pairs, and we still have several in our herd across all ages. What a testament to the genetics and stayability of this cow family. That means good feet, good udders, good dispositions, and, most importantly, customers who keep coming back to buy her progeny. Our bull buyers love her sons because of the weaning weights and the profit they can generate. There are no throwaways in this family. This is the kind of cow family we want working in our herd.

These Ditto females click every time! We love the balance, smoothness and overall look N79C offers. She combines the kind of phenotype that makes these females so valuable with the maternal foundation behind her. Adding TJ Take That should produce an exciting calf with an improved EPD profile, while maintaining the look and functionality we've come to expect from this cow family. This is a mating we're excited to see work, both on paper and in the pasture.

7.4	2.1	79.5	123.3	2.9	22.7	62.5	0.47	0.71	135.4

AI'd 5/15/26 to GCC Night Owl (ASA# 4284092). PE to JWC You Betcha 865N (ASA# 4552723) from 5/28/26 to 7/27/26. Blackstar is a baldy female that many breeders should already have on their list of breds. N059 is easy to like and should be an excellent addition to your breeding program. Blackstar brings a valuable breeding piece with a somewhat different pedigree. This complete female is smooth-made, long-bodied, correct, and neat in her design, with the kind of maternal value that should develop into a nice udder and productive system. Take her home and put her to work—she should pass on those show-stopping qualities.

AI'd 5/2/26 to ES Five Star Limitless N13X (ASA# 4667210). PE to JWC You Betcha 865N (ASA# 4552723) from 5/28/26 to 7/27/26. A donor that has been good to the Clearwater program is DDA Miss Northern 2026. She is one great Angus cow that has produced SimAngus cattle, with one of her progeny represented in each sale. Here is an opportunity to add another member of that proven female line.

AI'd 5/11/26 to Bridle Bit Recharge K256 (ASA# 4058272). N549 is a descendant on the top side of the legendary Right To Love. N549 is a production-oriented cow and, if you need to build your numbers, here is a replacement female to consider. Cow numbers have been at their lowest in a long time, and the Clear Choice offers a great selection of breds and pairs to help build a productive herd. She is backed by the Clear Choice commitment to customer satisfaction, and a big plus is that she is bred to Recharge.

AI'd 6/30/26 to Ruby's Start Up 3L05 (ASA# 4370993), sexed heifer semen. Ed didn't realize we had a female that went back to a champion, but 63N traces back to Chyna, who was Champion Female at the North American. 63N is deep and long-bodied, plus well balanced and complete. Schooley Standout is a strong part of the pedigree, and on the bottom side is the dependable SVF Buckle Up cow family. We are happy to bring this standout female to the sale. Take a close look at the body mass, bone, and overall completeness she offers.

AI'd 5/17/26 to WHF In Charge M414 (ASA# 4568618). NL23 is solid as a rock—stout, deep, and wide. This well-balanced female is sired by Point Proven out of our donor Missy, and his progeny come easy and vigorous. Poppy is Homo Polled and Homo Black and has been GE tested, like all the rest of the cattle on the farm. We use every tool available in our operation so we can back our genetics in every way possible and provide our customers with confidence and satisfaction.
